

HARVEST OVERVIEW 2020

It was a great year for our gardens. We were privileged to borrow 6000 square feet of land to garden from Our Lady of La Salette Church in Berkley, Michigan. The extra gardening and farming space bumped up our growing quite a bit.

Through November, Giving Gardens has grown, harvested, packaged, and delivered over 4455 servings of produce, averaging \$2.75 per serving.

On average 1-2 packages have been included with each family's food delivery. We have far surpassed our goals for 2020!

There have been over 75 unique produce items distributed this year. Below is a sample list of produce that was grown and distributed by Giving Gardens.

SAMPLE LIST OF HARVESTED PRODUCE 2020
